## PARAGON CHIP DUMP

MODEL: PCD

TELEPHONE: SERVICE (44) 01332 875665

FAX: SERVICE (44) 01332 875536

### **WARNING**

**To avoid scratching the highly polished exterior surface of this equipment whilst in transit, the protective film on the exterior surfaces has NOT been removed.**

**It is IMPORTANT that this protective film is peeled off before the equipment is used.**

### **OPERATING INSTRUCTIONS – USING AS A CHIP DUMP**

1. Ensure all packaging has been removed
2. Turn on power supply, the red lamp should show to indicate that there is power to the machine
3. On initial heat up turn the simmerstat to the number 3 setting (continuous heat) for 15-20 minutes, the green lamp will show to indicate power to the base element, after this period turn down to a lower setting, the green lamp will then extinguish and then come back on intermittently as the simmerstat regulates.

#### **Do not leave on number 3 setting**

4. Turn the variable QLD controller to the desired setting; this controls the intensity of heat given by the quartz lamp.

### **USING AS A DRY BAIN MARIE**

1. When using as a dry bain marie follow the above instructions, with the exception of using the quartz lamp. Your unit will except up to 150mm pots
2. Place hot food in the containers. Note that the bain marie is intended to maintain the food temperature and is not designed as a cooker

### **USING AS A CARVERY SERVERY**

1. When using as a carvery servery follow the same instructions as the chip dump. You may need to increase the base heat to a slightly higher setting.

### **CLEANING**

1. Allow the machine to cool
2. Remove the containers and clean them in hot soapy water
3. Wipe down the machine with a soft cloth, do not use abrasive materials.

**RATING – 1.2 KW, 5A, 240V SUPPLIED WITH A 13AMP 3 PIN PLUG FITTED**

## **Declaration of conformity CE**

- This product has been designed, constructed and marketed in compliance with:
  - safety requirements of EEC Directive “Gas” 90/396;
  - safety requirements of EEC Directive “Low voltage” 73/23;
  - protection requirements of EEC Directive 93/68.
- This product is suitable for contact with foodstuffs, and complies with EEC Directive 89/109.
- This product has been designed to be used only for cooking. Any other use (such as heating a room) is improper and dangerous.
- This appliance is marked according to the European directive 2002/96/EC on Waste Electrical and Electronic Equipment (WEEE). By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product.
- A symbol on the product, or on the documents accompanying the product, indicates that this appliance may not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

Disposal must be carried out in accordance with local environmental regulations for waste disposal.

For more detailed information about treatment, recovery and recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

**TELEPHONE: SERVICE (44) 01332 875665**

**FAX: SERVICE (44) 01332 875536**

Parry Catering recognises our obligations to the EU DIRECTIVE covering the waste disposal of electrical and electronic equipment (WEEE), Parry Catering are committed to this policy in order to help conserve the environment.

At the end of this unit's life you **MUST** dispose of it in an approved manner. You **MUST** not discard the unit or place it in the refuse bin.

You have several options:

- a) Take the unit to an approved WEEE scheme company, there will be one in your area.
- b) Take the unit to an approved waste disposal site; many sites are managed by your local authority.
- c) Contact the unit's manufacturer, importer or their agent the contact details will be on the unit.

There will probably be a charge for this service which will depend on the physical location of the unit and size you will be given a collection price for a curb side collection based on commercial rates prevailing at the time.

It should be noted that the unit to be collected should be suitably packed and sealed to prevent dangerous gases and fluids from escaping. The condition of the unit must also be clean to comply with health and safety regulations.
