

## AWZ9HP-PRO-BP 6th Sense Heat Pump Dryer

ENERGY  
**B**

### Product Highlights

**Power supply:** 13 amp plug

**Dryer capacity:** 9kg

**Dimensions:** W595 x D656 x H849mm

**Drying system:** Heat pump technology

**Programmes:** 18 (including Wool, Mixed Fabrics, Synthetics, Delicates, Rapid 30, Refresh, and Sport)

**Energy usage at full load:** 2.07 kWh per cycle\*

**Drying duration at full load:** 211 minutes per cycle\*

**Drying noise level:** 64 dBA

**Stacking kit:** C00378975 (sold separately)

**Tested operating hours:** 5,000 hours  
(Compliant with Machinery Directive 2006/42/EN)

**Warranty:** 1 Year Parts and Labour

**6th Sense Technology:** When it comes to laundry, saving energy matters. Beko Professional products know exactly how to do it, thanks to 6th Sense Technology that uses intuitive sensors that adapt resources to the size and type of load, guaranteeing optimal performance while saving energy, and time.

**Heat Pump Technology:** Experience ultimate energy efficiency with the AWZ9HP-PRO-BP dryer, thanks to Heat Pump Technology and a sense inverter motor. This innovative combination allows for optimal energy utilisation while maintaining exceptional drying performance. Compared to standard condenser dryers, you can save up to 60% kWh when drying a full load of cotton on the cupboard dry setting. Enjoy superior efficiency without any compromise on drying results.

Tailored for **light to medium-duty** commercial use, the AWZ9HP-PRO-BP serves as the perfect solution for a wide range of small businesses:

**Hotels, B&B's, Camp Sites, Holiday Parks, Sports & Fitness Clubs, Restaurants, Cafés, Salons, & Student Halls.**

Main Features	
GTIN number	8003437609794
Load capacity	9kg
Drum volume	120 Litres
Maximum spin speed	1400 RPM
Programmes	18
Exterior finish	White
Drum material/type	Stainless Steel
User interface	LCD
Panel language	Symbol / English
Drying technology	Heat pump
Drying noise level	64 dBA
Plug type	UK 13 amp plug
Noise insulation	Yes
Tested operating hours	5,000 hours
Stacking kit	C00378975 (Optional)

Technical & Performance Features	
Gross & nett weight	46.5kg / 44kg
Product dimensions (mm)	W595 x D656 x H849
Packed dimensions (mm)	W655 x D693 x H872
Wattage	850W
Voltage/Frequency	220-240V / 50 Hz
Current	10 A
Energy usage per cycle (Standard Cotton cycle)	1.2 kWh (Partial load)
	2.07 kWh (Full load)
Drying duration per cycle (Standard Cotton cycle)	131 mins (Partial load)
	211 mins (Full load)
Drying noise level	64 dBA
Energy rating	B
Condensation efficiency	B
Door hinge	Right
Type of motor	Inverter

**3Dry Technology:** Experience the power of 3Dry Technology, a cutting-edge innovation that revolutionises drying performance. With its unique three-dimensional air distribution system, this technology ensures that every inch of the drum receives optimal airflow. The hot air enters both the holes at the back of the drum and the holes on the lifters, resulting in a more powerful and efficient heat distribution. Say goodbye to wet zones and uneven drying, as bulky items like bed linen are now uniformly dried to perfection.

**Fresh Care+:** Experience the superior freshness of Fresh Care+ technology. After the drying cycle is complete, a gentle stream of steam envelops the drum, providing a soothing massage to the load through slow bidirectional oscillations. This powerful combination of actions keeps your clothes fresh inside the dryer for up to 6 hours, effectively preventing the growth of odour-causing sources.

**Easy Cleaning Filter:** With just three simple steps, you can maintain optimal performance: open the filter, effortlessly extract it using the ergonomic handle, and then clean it. By regularly cleaning the filter, you ensure that the dryer operates at its best for extended periods, delivering reliable and efficient drying results.
