

Model F4 / T/ KENIA-TRON

Coffee Grinders

These models are good value grinders, providing well ground coffee in sufficient quantity for the normal coffee bar or restaurant. They are manufactured from polished stainless steel and have adjustable grinder blades and portion control. Coffee is dispensed into the filter holder with a flick lever mechanism. The models B and T are manually controlled, The Kenia-tron has a powerful silenced motor – which, combined with the touch sensitive selector screen provides a high quality medium duty grinder. Designed to Perform.

fracino BAMBINO

Innovation and Quality

The Bambino is a top quality 1 or 2 group espresso coffee machine with semi-automatic or electronic options and is exceptional value for money.

The Bambino benefits from all the top-class skills, innovative design and state of the art production methods that this world-renowned manufacturer has to offer. Coupled with a Model B, T or Kenia-tron grinder and the economy knock-out drawer, the Bambino will make a stunning addition to any bar, restaurant or coffee shop for a surprisingly low level of investment.

They are available with 1 and 2 groups for making coffee and each machine has a hot water facility and steam tube for frothing and steaming milk. All have large capacity boilers, high-powered elements and are hand built to the highest standards using only the finest stainless steel, copper and brass.

The groups on the semi-automatic Bambino machines are operated by a rocker switch, so the user can control the amount of coffee being dispensed into the cup. Electronically controlled models have unique touch pads with four accurately pre-programmed coffee measures and an override option button. All working surfaces, steam and hot water tubes are made in 304 stainless steel with Zintec powder coated side panels in a metallic anthracite finish.

The luxury Ivori editions feature black or white finish side panels (to order), two steam valves, barista lighting to the coffee preparation area and two fold-away espresso trays.

BAMBINO

Key Features

- Both 1 & 2 group models require only a standard 240v 13amp power supply. (2 Group Compact 10amp supply only)
- 2 group models have 120 mm group height clearance to accommodate taller or take-out cups. 1 group models have standard 110mm clearance.
- Rotary solid brass valves for the steam and hot water dispense.
- Thermosyphonic heat exchangers within the boiler ensure that each group is kept constantly hot for perfect and consistent coffee extraction.
- Front, Upper and Rear Panels are all made from highly polished stainless steel 304 for easy cleaning and to ensure durable working surfaces. Easy clean stainless steel steam tube.
- Optional ESE pod and capsule adaptor available on request.
- Automatic group cleaning cycle on 2 group Electronic model.

Luxury Edition (BAM2/2E-3V-IVORI) features:

- Two fold-away espresso trays.
- Two steam and one hot water valves. Handles with chrome finish caps.
- Chrome finish to feet.
- White side panels and bespoke design pressure gauge.
- Barista Lighting – powerful cool white LED illumination of the coffee preparation area
