

G9081 Gas Solid Boiling Top

Short Form Specification

Unit to be Falcon F900 Series gas solid top unit having a 10.3kW central gas burner and to be supplied upon adjustable feet and to be installed upon open base cabinet or stand.

Burner with flame failure device as standard to guard against being extinguished accidentally.

The cooking surface will be made from 10mm thick cast iron and will be in sections to allow removal for ease of cleaning. The cast iron cooking surface will be flush with lateral units and front hob to create a plating area.

The hob will be constructed from 2mm 304 grade stainless steel. Hobs will be laser cut with right-angled edges to allow joining of units with no gaps between hobs. Exterior panels are Scotch Brite finish stainless steel. Control knobs to be marked showing gas positions and to have a bezel behind each knob to prevent water ingress.

Unit will be for use with natural, propane or butane gas and be supplied with conversion kit.

Key Features

- High performance 10.3kW cast iron burner
- Burner fitted with flame failure device as standard
- Cast iron hob plates
- Central burner delivers graduated heat
- Removable central sections for direct heat to pans
- Supplied upon adjustable stainless steel feet
- 2mm thick 304 grade stainless steel hob
- Laser cut hob allows edge to edge joining of units
- Stainless steel external panels with Scotch Brite finish
- For use with natural, propane and butane gas. Conversion kit supplied with each unit
- Dynamic Link System Compatible

Integrated linking system allows quick and easy installation to create a continuous cookline.

Patent pending, application no. GB 1511389.7

Optional Accessories

- Front hob rail
- Fixed or mobile stand
