

COUNTER-TOP **FOOD DISPLAY**

AND MERCHANDISING

Quality you can depend on

Lincat is one of the world's leading names in commercial catering equipment. Established in 1971, the Lincat brand is today synonymous with outstanding product reliability. Our strong reputation is based on sturdy, durable construction and first-class technical support. In short, Lincat stands for quality.

Lincat's Seal counter-top food display merchandisers are already a familiar sight worldwide in hotels, airports, petrol forecourts and sporting venues. All products in the range have been carefully designed to give outstanding performance, maintaining optimum temperatures even in adverse conditions. Whatever your requirements and budget, you will find the ideal unit for all your heated, refrigerated or ambient food display needs.

For your complete peace of mind, we rigorously test our products in purpose-built temperature and humidity-controlled facilities. So we can quote realistic, achievable operating performance data. We listen to our clients and have designed the Seal range around your main needs.

Attractive styling and understated elegance in neutral colours blend seamlessly into any surroundings, enhancing display without detracting attention from contents – helping to improve customer spend on food. And all units are designed to maintain the highest standards of hygiene and safety, durability and reliability.

A British company, based in Lincoln, Lincat can guarantee you prompt product delivery, rapid despatch of spare parts and a highly responsive back-up service for your total satisfaction.

Lincat catering equipment – for exceptional quality and value.

Pages 4-7

650 Range Curved-Front Merchandisers

Understated elegant styling blends perfectly into any front-of-house setting, with performance that fully meets all food safety regulations. A choice of refrigerated, heated or ambient units, all are a generous 650mm deep and feature daylight-balanced illumination to enhance food sales.

Page 14-15

Food Display Bars

Versatile and so elegantly styled they are suitable for use either front or back-of-house. Capable of holding chilled food at 3 - 7°C, they perform reliably to food safety standards.

Page 8

650 Range Rectangular-Front Merchandisers

For maximum capacity, these 650mm deep rectangular-front refrigerated models are ideally suited to busy outlets. The shape offers all-round visibility and generous internal space, giving plenty of room to display tempting meals and snacks for improved customer spend on food.

Pages 14-15

Food Preparation Bars

Practical yet stylishly designed, these versatile bars are ideal for holding chilled foods either front or back-of-house. Consistently high performance and affordable peace of mind on food safety.

Page 9

500 Range Merchandisers

Make the most of sales potential where space is limited with a range of mid-sized units, either refrigerated or heated, all offering generous capacity. Like the 650 and 350 Ranges, Seal 500 Range refrigerated models deliver reliable performance in ambient conditions of up to 25°C and 60% relative humidity.

Pages 16-17

Heated Displays

Easily portable heated displays ideal for permanent and mobile operations. Overhead light gantries give food an attractive glow. And heated bases without gantries offer a low-budget solution to keeping pre-cooked food warm.

Page 10

350 Range Merchandisers

The perfect budget solution to bar-top display of heated and chilled food. A range of refrigerated and heated units 350mm deep, with rectangular fronts for maximum internal storage. Stylishly designed for attractive space-saving display.

Page 18

Upright Heated Merchandisers

A choice of rotating or static racks for tempting displays of hot food and snacks. Combination models include ovens - perfect for pizzas, potatoes, pies or pastries, baked and displayed in one convenient unit.

Page 11

Glass Display Cabinets

Attractive and elegant, glass display cabinets offer generous capacity. A supremely cost-effective solution to displaying both food and non-food items. Manufactured from toughened glass for strength and added safety.

Page 19

Pie Cabinets

Highly efficient cabinets hold pre-heated food at safe temperatures. An economical solution to the inviting and appetising display of pies and pastries. Optional humidity feature and illumination for extended holding and enhanced presentation.

Pages 12-13

Food Display Showcases

For quiet, efficient operation, display showcases offer the perfect economical solution. Heated and refrigerated models deliver exceptional reliability and food safety. Attractive understated styling focuses attention on contents to increase food sales.

UMS050	565	925	Static	Self	420x446	Yes	380x390		

SEAL Pie Cabinets

Safe and highly efficient, Seal pie cabinets hold pre-heated food at the required temperature. These versatile units provide an economical solution to displaying pies and pastries in an inviting and appetising way. With the option of a humidity feature and illumination for extended holding and enhanced presentation.

Pie Cabinets

- Stylish, rounded and compact design for attractive display where space is at a premium
- Robust stainless steel construction – hygienic and easy to clean
- Manufactured from toughened glass throughout for safety
- Three chrome-plated rod shelves in the LPW model and four in the LPW/LR model
- Two 25-watt diffused switchable lights with user changeable bulbs for enhanced food presentation (LPW/LR model)
- Humidity feature to keep food in perfect condition for longer, minimising waste (LPW/LR models)

LPW/LR

LPW

Hygienic easy-clean removable crumb tray

Wipe-clean chrome-plated shelves

User-changeable light bulbs (LPW/LR model)

Water tray for added humidity (LPW/LR model)
