

NT SERIES

R600a

HYDROCARBON REFRIGERANT COLDER BY NATURE

BACK BAR

The NT series of bottle coolers are fitted as standard with energy efficient pure white LED lighting. With digital temperature control and self closing lockable doors the NT series has one of the most comprehensive bottle cooler lineups in the UK.

Designed to fit under a standard bar the single, double and triple door models are available in black or stainless steel finish. A low profile 850mm high unit is also available.

The upright models are available in single and double door variations and feature ultra bright vertical LED lighting and mirror finish stainless steel interior to make them stand out against the crowd.

Nomenclature 1 - Single door 2 - Double door 3 - Triple door 10 - Single door tall 20 - Double door upright B - Black ST - Stainless Steel H - Hinged doors S - Sliding doors SP - Left hand hinged LO - Low profile - 850mm high cabinet SLIM - Slim line - 500mm wide cabinet KC - Keg Cooler BD - Bottle Dump GF - Glass Froster / Sub Zero cooler

- Energy efficient pure white LED lighting
- External light switch
- Fully adjustable chrome shelves
- Lockable doors
- Self closing doors
- External digital temperature control
- Fan assisted cooling
- Automatic defrost
- High efficiency low noise compressors
- R600a refrigerant

BOTTLE DUMPS

The NT Series bottle dumps have been designed with high volume venues in mind.

The bottle dumps are ideal for fast serve operations such as night clubs, bars and stadiums offering quick and easy access to fast selling bottled beverages.

The NTBD units come fitted with a bottle opener, cap catcher and spring loaded bin dividers for quick and effective service.

Digital temperature control and automatic defrost allow for easy use and a consistent temperature for a perfect serve every time.

REFRIGERANT COLDER BY NATUR

SPECIFICATION

- +2°c to +8°c temperature range
- Durable black exterior finish
- Insulated sliding lids for easy access
- Aluminium interior
- Hard wearing stainless steel top
- Adjustable bin dividers included
- Bottle opener and cap catcher fitted
- Digital temperature control
- Digital temperature display
- Mains on/off switch
- Fan assisted cooling
- Automatic defrost

KEG COOLERS

The Prodis NTKC cabinets are part of the best selling Prodis NT series back bar cooler range.

The NTKC cabinets have been designed to allow for easy mobile installation making them ideal for outside events.

The cabinets feature forced air cooling for rapid temperature pull down, insulated beer column with 1/2" keg connectors, integrated drip tray with removable drain pan situated underneath the cabinet and storage capacity for 1/2 kegs (11gallon).

- +1°c to +8°c temperature range • Holds 1/2 kegs (11 gallon) • Durable black exterior finish • Hard wearing stainless steel work top • Drip tray recessed into work top • Integrated CO2 knockout for easy connection to external gas lines • Fully stainless steel interior Additional galvanised floor protect supplied as standard • Forced air cooling for rapid temperature pull down • Insulated beer column with cold air feed • Digital temperature controller Castors as standard for easy manoeuvrability

SPECIFICATION

GLASS FROSTERS

The NTGF series glass frosters are designed to quickly chill glasses for a superior finishing touch when serving premium lagers or cocktails.

The coolers can also be used store vodka at ice cold temperature for serving a colder, fuller bodied cocktail.

Forced air refrigeration and a digital temperature controller ensure a constant temperature throughout the cabinet.

The heated glass door and internal illumination on the NTGFC add an element of theatre to any bar or cocktail lounge by allowing the customer to see glasses chilling.

SPECIFICATION

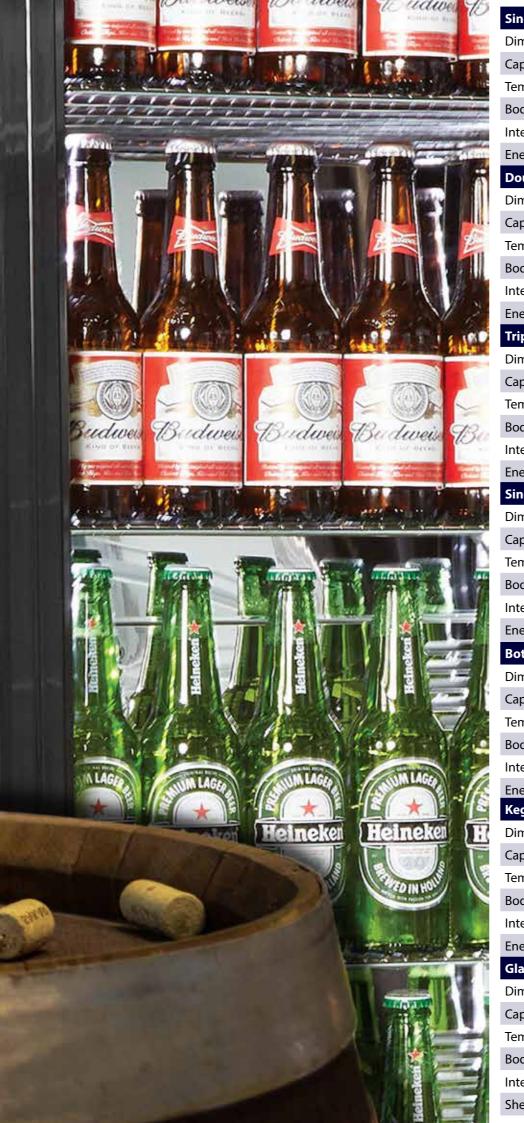

- Forced air refrigeration
- Automatic defrost
- Frosted glasses in minutes
- Also suitable for keeping spirits at ice cold temperatures
- Heated glass door to prevent condensation build up
- -10°c to -15°c temperature range
- 2 fully adjustable shelves
