

VITO Tabs - Fryer Cleaning Tablets

VITO
oil filter system

Instructions for use:

Drain frying oil and wipe out any remaining oil from pan. Fill the fryer with water to the "max" mark (incl. stainless steel brackets and accessories) and add the VITO tabs according to the dose table.

Heat the fryer to max. 80°C (176°F) and leave the solution for 15-20 minutes.

Remove any remaining residue with a soft brush.

Empty the fryer and rinse thoroughly with water at least 3 times - ensure the fryer tank is completely dry before refilling with oil.

Features:

- ▲ Intensive cleaning for fryer & stainless steel accessories
- ▲ Easy & safe dose
- ▲ Removes burnt-on grease and oil
- ▲ Prolongs the life of your fryer

Dose table:

Fryer capacity	Number of tabs
6-15 litres	1
15-25 litres	2

Ingredients:

< 5% phosphonates, anionic surfactants, oxygen-based bleaching agents, sodium hydroxide, disodium carbonate, compound with hydrogen peroxide (2:3), benzenesulfonic acid, alkyl (C10-13), sodium salt

Notes:

VITO Tabs - Fryer boil-out can be highly corrosive to metals. Do not use on aluminium or other alkali-sensitive materials (e.g. household fryers). Use only for intended purpose.

Transport upright and store in a cool, dry place.
