## *leading the way with state of the art glassware*

Bormioli Rocco's first glassware factory dates back to 1825, but historians say the origins of Bormioli Rocco glass can be traced to the Middle Ages. With stemware, tumblers, beer glasses and iconic food storage jars gracing tables around the world, quality is the cornerstone of the foundation supporting the Bormioli Rocco brand. The manufacturing facilities utilise state of the art technology and economically source only the best raw materials. From the finest sand imported from Germany to organic glazes used to colour glass, all are brought together in products influenced by exhaustive design research. Thanks to continuing investment in technology, research and design, Bormioli Rocco has become one of the leading glass manufacturers in the world.

### *create a custom experience*

Engrave your company's logo on your glassware for brand recognition while indicating the desired pour line for your staff's reference. Steelite International's 'laser-true' technology gives you the opportunity to create a unique addition to your tabletop and a cost-saving solution for your business.

BORMIOLI ROCCO
***made in italy since 1825***

***the elegance you want, the durability you need***

"In alto i calici" is the traditional Italian phrase meaning to "Raise your glasses" before a toast. The inAlto collection is Bormioli Rocco's toast to fine Italian design and was created with the restaurateur in mind; providing the elegance you want, and the durability you need. The distinctive angles and tall, thin stem beautifully enhance a table setting. The brilliancy of Star Glass provides the guest with an exceptional wine tasting experience, while the durability of the XLT strengthened stem maximizes operator value. InAlto exemplifies the passion of Italian design, grace and quality.

# THRILL THRILL *vortex*

A unique machine that not only sanitises in seconds, but keeps drinks cooler for longer without watering down the beverage or altering the flavour and aroma. Ever wondered why cocktails served in the trendiest bars taste so much better? The answer may not lie in the contents of the glass, but within the glass itself. A glass that has been cleaned and sanitised properly enhances the overall taste experience. The invisible residue that remains after washing may taint the taste and odour of drinks, compromising the quality of beverage served.

With THRILL, it takes just a few seconds to thoroughly sanitise and chill a glass, leaving it completely free of any unpleasant odours or aftertaste, giving customers the perfect serve and taste experience.

Stylish and theatrical, THRILL is a must have for upmarket bars and restaurants.

## *strahl*

**Care guidelines**
Strahl beverageware is made from an incredibly strong product called polycarbonate. Follow these simple rules to ensure your beverageware remains crystal clear.

- Avoid stacking (unless you are using the CapellaStack range, which is designed for stacking) whilst carrying or storing it. Polycarbonate products are incredibly tough so will scratch other polycarbonate products if allowed to rub together.
- Wash in the dishwasher or by hand with warm soapy water to remove residues from juice, milk, stout, etc. Washing in a steriliser may result in a build up of residue.
- Polycarbonate may be scratched if cleaned with abrasive brushes. Buffing with a microfibre glass polishing cloth will minimise any light scratches or abrasions.
- The Da Vinci range has a threaded joint that should not be unscrewed.

**Dishwasher safe**
Strahl is completely dishwasher safe in both standard and commercial dishwasher systems. Strahl products have been tested in a STARLINE GM High performance glass washer for 2000 wash cycles.

**Test details:**

- Klenzmatic KM1 Glasswasher detergent
- Wash temperature 65 °celsius (149 °fahrenheit)
- Rinse temperature 80 °celsius (176 °fahrenheit)
- Wash cycle time 45 seconds
- Rinse cycle time 15 seconds

**Results:**
After 2000 wash cycles, Strahl beverageware products showed minimal micro scratches, not visible under normal usage conditions.

**What can I serve in my Strahl beverageware?**
The following aniseed based drinks cannot be used with any kind of polycarbonate beverageware as they will cause permanent damage: Pernod, Anis, Ricard, Raki, Ouzo. Milky drinks may leave a residue if not washed with warm soapy water.

**Fridge and freezer safe**
All Strahl beverageware products can be chilled in the fridge or freezer, with superior insulation properties keeping beverages at optimal drinking temperature for longer. Perfect for desserts and frozen drinks.

- Polish the bowl first followed by the stem and then the base
- Hold glasses by the stem to avoid fingerprints on the bowl
