

## HEA130 20 Tier GN Trolley Assembly Instructions

### Assembly

1. Attach the six cross members to one of the side frames, using six of the screws supplied.
  2. Lay this side frame on floor with the cross members pointing upwards.
  3. Carefully position the second side frame on top of the cross members. Attach using the remaining screws.
  4. With the assembled frames still on their side, screw the covers and castors into frames.
- \* Braked castors should be at the front of the trolley.

### Safety Tips

- o DO NOT stand or climb on the trolley.
- o DO NOT drop heavy items on the trolley.
- o DO NOT place heavier items on the top of the trolley than on the bottom.

### Cleaning

- o Clean the trolley using warm soapy water.
- o Dry thoroughly after cleaning
