

MODEL T15-N

Most **Compact & Versatile** single flavor tabletop model that offers quality, capacity and simplicity

Fast Freeze Down

Patented high efficiency heat exchanger allows fast freeze down with low energy consumption

Overrun & Consistency Control

Simple and easy control of viscosity and overrun to ensure product consistency

Low Mix Indicator

Light turns "ON" at low mix to alert operator to add mix

Self Closing Dispensing Valve

Automatically prevents product overflow after dispense

Dispense Speed Control

Provides flexibility in dispense rate control for different applications

Hopper Refrigeration

Independent hopper cooling system consistently maintains product temperature below 4°C at all times

Soft System Start

Slow motor start reduces equipment noise and stress on drive train

Standby

Maintains product temperature in both mix hopper and freezing cylinder below 4°C overnight

Safety Protections

Low temperature and motor overload shutoffs to protect in the event of cylinder freeze up • High pressure switch to prevent compressor overheating • Thermal overload to protect from motor overheating

Ideal for any business with limited counter space to add ice cream, frozen yogurt, gelato or sorbet. Simple control makes it super easy to operate. Great fit for restaurants, bars, kitchens, convenience stores and delis.
