

D500DUO

Front-loading commercial dishwasher with a digital display, three wash programs and WRAS compliance for effortless and consistently clean results.

The D500DUO is an easy to operate, under counter dishwasher with a 500 x 500mm basket that holds 18 full-sized plates. It features three wash cycles standard (3min), heavy (5min) and intense (8min) - ensuring that it is optimised for cleaning some of the toughest warewashing requirements.

The digital LCD display accurately shows the temperature of the wash tank and rinse boiler, re-assuring the operator that it is up to temperature and fully sanitising during the wash cycle.

With intuitive colour coded lighting and universally recognised symbols, this machine has been designed to make operating as simple as possible, whilst also featuring performance enhancing customisations through its advanced settings mode. Additionally, its clever software constantly monitors wash cycles, temperatures, chemical usage and any errors giving valuable data which is used to improve operational efficiencies.

The Duo range of products all come with drain pumps, rinse booster pumps, built in chemical dispensers and full double skinned construction ensuring they meet all installation regulations and requirements. All Duo models are also available with an optional water softener – an essential requirement in hard water areas. (D500DUOWS)

Locally manufactured

Our machines are Made in Britain (Staffordshire) meaning shorter lead times on delivery, parts and support.

3 Wash Programs

The D500DUO Standard (3 min), heavy (5min) and intensive (8min) cycles allow for maximum output without compromising wash quality.

LCD display

The D500DUO enhances user functionality by displaying rinse and wash tank temperatures.

Double skinned sides and door

Allows for quieter operation and reduced heat loss.

Water Board (WRAS) compliant

All Duo machines are fully compliant with essential Water Board regulations.

Advanced Customer Features

Adjust rinse aid and detergent settings, priming of chemical pumps and set water softener to match local water hardness levels (WS models only).

Colour Coded Display

Amber flashing - Machine heating Blue - Machine in cycle Green - Machine ready

Operational Data monitoring

Our machine constantly measures all cycles, heating and errors providing useful data for improving efficiencies.

Machine Features:

500mm x 500mm basket	Built-in chemical pumps	Drain pump	Rinse Booster Pump	Temperature interlock - guarantees hot rinse
Energy saving standby mode	Stainless steel dual wash filter system	Assisted self-clean	Easily removable components
