Gamko Maxiglass Maximum presentation, minimum power consumption

Maxiglass bottle cooler by Gamko

Maxiglass coolers with glass doors are specially designed to present bottled drinks in an aesthetically pleasing manner, reach the perfect temperature, and maintain it. Thanks to the Maxiglass cooler, the beverage inside the bottle is always served at the correct temperature, and the taste and quality is guaranteed. Maxiglass bottle coolers are available with green properties (a maximum capacity of 315 litres and 3 doors) and as a tall upright model (a maximum capacity of 500 litres and 2 doors).

Maximum presentation and minimum power consumption with the Maxiglass Noverta Premium

The models of the Maxiglass bottle cooler have been fully modernised and improved inside and out. A modern and sleek design combined with improved technologies and components means that the Maxiglass isn't just a fantastic product because of the way in which it presents its contents, but also because it cools beverages in bottles and/or cans in an energy-efficient manner. We present this green series under the name 'Maxiglass Noverta Premium' and guarantee that its lower power consumption will allow you to save up to 125 GBP per year. And you aren't just saving money; you're also investing in an environmental responsible product. The table on page 3 shows how much electricity and money you can save each year thanks to the new Maxiglass Noverta Premium bottle cooler.

⁴ Calculations are based on a KWh price of GBP 0.136 with Energy Technology List quoted energy consumption figures compared with MG1 models. Tests conducted on recently produced Gamko coolers according to IS023953.

General characteristics

Maxiglass Noverta Premium (under counter models)

(specific characteristics in the table on page 7)

- > Plug ready (no separate condenser required)
- **Energy-efficient**
- Environmentally friendly
- > Hydrocarbon refrigerant R600a
- New design
- Maximum presentation
- > Electronic thermostat display so you can check the temperature of contents
- > Fitted with door locks as standard for keeping your contents safe and secure
- > Adjustable flat shelves
- > Efficient LED lighting with uniform light distribution to show the drinks in a really appealing light
- > Automatic defrost for guick defrost and easy cleaning
- > Temperature +4° C / +8° C (Factory setting)
- > Adjustable temperature range +1° C / +18° C

with even, clear light distribution in order to display the contents of the cooler as effectively as possible. Thanks to a separate switch, it is possible to turn off the light without affecting the main function of the cooler. You can save even more energy by turning the light off at closing time.

Green

The green Maxiglass Noverta is energy-efficient. You will save money and contribute to protecting the environment thanks to its lower energy costs. The design makes the Maxiglass the leading choice for presenting beverages in bottles and cans.

Handles ·

Anthracite models with a hinged door are fitted with a stylish and robust integral handle which is installed across the entire length of the cooler (from top to bottom). Therefore, even if the Maxiglass cooler is not located on the floor, it is still easy to open.

Fans

Efficient and energy saving fans to ensure that cold air is effectively and quickly distributed throughout the cooler.

General features

Gamko manufactures and supplies professional coolers for the bar and leisure industry

Gamko is a leading manufacturer and supplier of professional coolers for the bar and leisure industry. Since its establishment in 1958, Gamko has grown into an international company, which focuses mainly on manufacturing, selling and maintaining a complete range of professional drinks coolers.

Quality from Europe

With its own production and research department in Etten-Leur, The Netherlands, Gamko develops, manufactures and supplies products that are tailored to the needs and quality requirements of today's catering industry. Aspects such as design, functionality, customer satisfaction and the environment play a major role in this. Gamko is ISO9001- and ISO14001certified, guaranteeing the quality of our products and processes and ensuring continuous improvement.

Modern production of equipment guarantees an excellent price-quality ratio and because production takes place in the Netherlands, Gamko also has highly flexible delivery times. If you choose Gamko, then you will be choosing quality, flexibility and sustainability.

Gamko: an international player with world-class products

Gamko has its own export department with a worldwide network of agents and its own sales organisations in Benelux, the United Kingdom and France. Our sales organisation delivers a complete range of cooling equipment, in particular for the bar and leisure industry right throughout the world. If after reading this brochure and/or documentation you would like more information about the products listed below, please feel free to contact Gamko.

Gamko manufactures and supplies (see also www.gamko.com)
