NT Series

The NT series of bottle coolers are fitted as standard with energy efficient pure white LED lighting. With digital temperature control and self closing lockable doors the NT series has one of the most comprehensive bottle cooler lineups in the UK.

Designed to fit under a standard bar the single, double and triple door models are available in black, silver or stainless steel finish. A low profile 850mm high unit is also available.

The upright models are available in single and double door variations and feature ultra bright vertical LED lighting and mirror finish stainless steel interior to make them stand out against the crowd.

Standard Features

- +2°C to +10°C temperature range
