NEW Food Waste Strainer for commercial sinks

PATENT PENDING

A unique sink strainer system designed and manufactured by Mechline **to make it easier for kitchen staff** to prevent food waste particles from entering the drainage system via the sink drain boss.

THE EASY WAY TO PREVENT FOOD WASTE GOING DOWN THE DRAIN

SIMPLE TO USE...

RINSE the food waste particles into the basket

EMPTY out the food waste into the recycle bin*

REPLACE the basket to keep the sink clean & clear

- Designed to fit sink bowl sizes between 580-610mm in length and 430-460mm in width
- Easy for kitchen staff to use
- Can be fitted to bowls with the drain waste on the left or on the right using unique, adjustable cover plates
- Raised angle of front end aids the rinsing of food particles into the food waste basket ready for emptying

- Removable basket allows trapped food waste to be easily emptied into the bin – no mess left in the sink bowl to deal with
- Reduces the ingress of food waste to the waste system
- Made from durable 1mm 304 Stainless Steel
- Helps to prolong service intervals for Grease Traps

- The sink plug upstand can be supplied – either 250mm or 300mm long (to work efficiently, an upstand is required)
- Complete system is easy to remove and replace, to allow periodic cleaning through the dishwasher

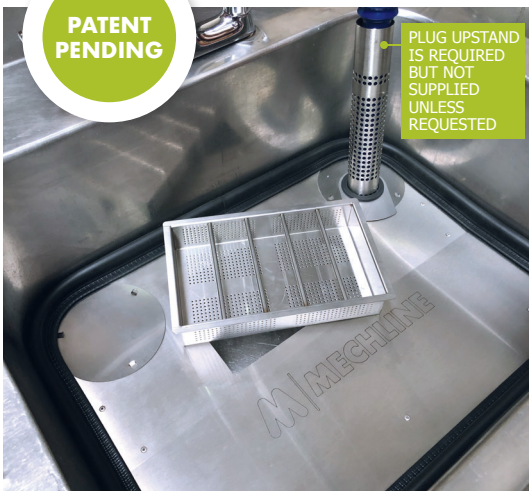

WORKS IN CONJUNCTION WITH GREASEPAK & BIOCEPTOR for a full FOG management solution

*We recommend food waste is recycled – contact us to find out about our environmental solutions.

MODEL:

FWS600

PATENT PENDING

MECHLINE FOOD WASTE STRAINER – to fit sink bowl sizes between 580–610mm in length and 430–460mm in width

Manufacturer: Mechline Developments Limited

PURPOSE

Designed to reduce food waste particles from entering the drainage system via the sink drain boss.

FEATURES & BENEFITS

- The unique, adjustable cover plates allow the system to be fitted to bowls with the drain waste on the left or on the right of the sink bowl.
- Raised angle of front face designed to aid the rinsing of food particles into the food waste basket ready for emptying.
- Removable basket allows trapped food waste to be easily emptied into the bin – leaving no mess left in the sink bowl to deal with.
- Easy to remove and replace the whole system, to allow periodic cleaning through the dishwasher.
- Reducing the amount of food waste entering the drain will help to prolong service intervals for Grease Traps.

• **Sink plug upstand can be supplied** and is available in two sizes (250mm or 300mm long) which will fit a standard 1 1/2 inch (40mm) waste **(for the system to work efficiently, an upstand is required).**

IMPORTANT NOTES

⚠ The Mechline food waste strainer comes ready assembled for a right-hand side drain waste. If the system is to be fitted in a sink bowl with the drain waste located on the left-hand side, the cover plates are very easy to swap over.

⚠ For the food waste strainer system to work efficiently, a plug upstand strainer is required. The upstand must be lower than the sink's brim.

MATERIAL

Durable 1mm 304 Stainless Steel

WEIGHT

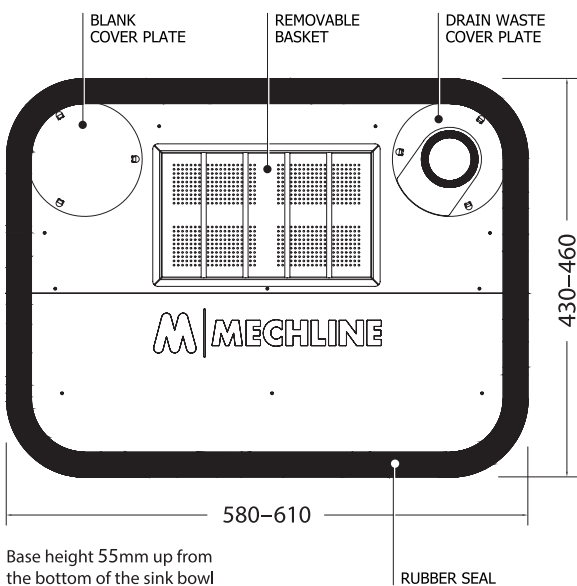

3.25 kg (unboxed and without plug upstand)

WARRANTY

One-year manufacturer's warranty from the date of invoice, against defective parts or faulty workmanship. *Terms and conditions apply.*

OTHER USEFUL PRODUCTS

The Mechline Food Waste Strainer works in conjunction with GreasePak and BioCeptor to give you a full FOG management solution. *Contact us to find out more information.*
