ASSEMBLY INSTRUCTIONS

Models

HEF662 – Wall Mounted Shelf with Backsplash 600x300x250

HEF663 – Wall Mounted Shelf with Backsplash 900x300x250

HEF664 – Wall Mounted Shelf with Backsplash 1200x300x250

HEF665 – Wall Mounted Shelf with Backsplash 1500x300x250

Stainless Steel Wall Mount Shelf Series

Installation Instruction

Safety Tips:

- Do not overload the shelf, this may cause it to bend.
- Care must be taken when cleaning or handling the shelf to avoid possible injury from exposed edges.

Pack contains:

- Stainless Steel Wall Shelf x 1
- Triangular Wall Shelf Brackets x 2 (3 pcs for length of 1200cm and up)
- Screw ① x 5
- Washer ② x 5
- Washer ③ x 5
- Hex Nut ④ x 5
- Screw ⑤ x 7 (10pcs for length of 1200cm and up)
- Self-Threaded Anchors ⑥ x7 (10pcs for length of 1200cm and up)

Note: Be sure to check all packaging materials for any small parts that may have come loose during transportation

Tools you will need: Lever, Stud Sensor, Philips Screw Driver, Drill

Assembly Instructions:

1. Remove all protective film from the parts, taking care to avoid scratching the surfaces
2. Determine the size (width and height) of the shelving area.
3. Use the stud sensor to find the first one and mark it using a pencil or chalk. Then, find the other studs. You need at least 2 studs to hang shelves, but 3 would be better for length of 1500mm & up.
4. Put the triangular bracket against the wall and mark the screw holes. Use the level to mark screw holes at the correct location on the other stud(s).
5. Attach one triangular bracket to the wall. First make a hole of the same size as the screw using the drill, then hold the bracket against the wall and attach with screws. Do the same with the other triangular bracket(s). Make sure the screw holes are aligned (they should be if step 3 is done correctly).
6. Put a thin layer of silicon on the top of all brackets and lay the shelf on the brackets, then use provided Philips screws and nuts to secure the shelf through the pre-drilled holes on both side of the shelf.

7.Parts List:

Product Size (mm)			Bracket	①	②	③	④	⑤	⑥
Length	Width	Height	quantity	pcs	pcs	pcs	pcs	pcs	pcs
600	300	250	2	5	5	5	5	7	7
900	300	250	2	5	5	5	5	7	7
1200	300	250	2	5	5	5	5	7	7
1500	300	250	3	5	5	5	5	10	10
1800	300	250	3	5	5	5	5	10	10

Note: The Central support does not attach to the shelf.

Ensure the mounting substrate can support the fully loaded weight of the shelf.

If necessary, seek professional help to ensure the shelf is safely mounted

Cleaning

- Clean the shelf regularly using a cleaning agent suitable for use with stainless steel.
- Always remove cleaning agent residue. This can discolour the surface of the shelf.
- Never leave the shelf surface damp as this can cause discolouration.
