

IKG275

VESTFROST
SOLUTIONS

SLIDING FLAT GLASS CONSERVATORS

With easy to access, large freezer storage the IKG range offers the perfect low footprint display freezer option. Its white laminated exterior perfectly accented by its sliding glass lid and aluminium interior the unit sure fits the part in any store.

If the addition of castors, manual temperature control and a digital display as standard doesn't seal the deal then the skin condenser and 13amp plug and play power supply is sure to complete it!

MODEL	BASKETS (MAX)	GROSS CAPACITY	REFRIGERANT	TEMPERATURE RANGE	DIMENSIONS (mm)	ENERGY RATING	POWER USAGE	KWH/ ANNUM	POWER	WEIGHT (kg)
