Arctic Series

Long term storage of deep frozen products is vital to any commercial kitchen. Which is why we have designed the Arctic series to be the most comprehensive, flexible and reliable commercial chest freezers available today.

With 4 models in the range each model is available with a standard white lid or a fully welded stainless steel lid allowing the top of the freezer to be used as a preparation area.

All models are supplied with a full set of baskets as standard.

The Arctic chest freezers are all covered by a comprehensive 5 year parts and labour warranty giving you total peace of mind in your purchase.

Standard Features

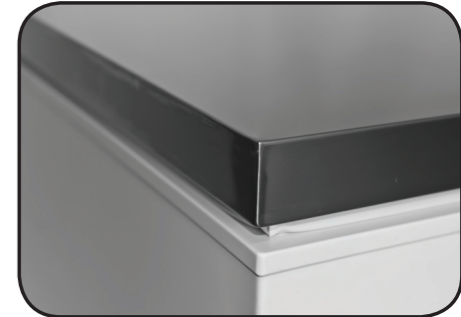

- Includes full set of baskets
- Aluminium interior
- LCD temperature display
- Counter balanced lid
- 60mm thick insulation
- Lockable lid
- Defrost water drain hole
- Adjustable thermostat
- Environmentally friendly refrigerant
- Air pressure balancing valve
- Replaceable door gaskets
- Power indicator
- Alarm light
- Galvanised steel construction
- Optional fully welded stainless steel lid
- -18°C to -22°C temperature range
