

Manitowoc[®]

SOTTO[™]
The clear and simple choice.

The clear and simple choice.

We called it Sotto because Sotto literally means “under” and Sotto is the all-new, redesigned undercounter ice machine from Manitowoc Ice. The Italian phrase *Sotto Voce*—*quiet emphasis*—perfectly describes Sotto’s unique undercounter plug-and-play design, and its industry-leading performance. Sotto will *quietly* do its job—reliably making quality, clean and clear ice—while allowing you to put greater *emphasis* on what’s most important—your customer.

Sotto is the perfect solution for venues where just a few large cubes in the glass are preferred—restaurants, bars, cafés, coffee shops, and delis.

Sotto’s intuitive control system self-adjusts to ensure that you have ice even in high ambient conditions.

The slide-out air filter protects against lint, grease and dust, making routine maintenance and cleaning of the condenser quick and easy.

Sotto’s redesigned refrigeration system is responsible for delivering as much as 43% more ice on a daily basis than our previous models while maintaining the same compact footprint that you require for your already busy kitchen.

Designed with built-in undercounter applications in mind, Sotto ice machines have no top or side minimum clearances to accommodate the most space constrained installations.

Large, slow-to-melt cube is just right for chilling beverages.

Quiet by nature,
the Sotto
undercounter
ice machine puts
quality ice where
you need it most.

Adjustable height.

Trusted quality.

Easy service access.

Simple controls.

Sized right
for your
operation.

	UG-20	UG-30	UG-40	UG-50	UG-80
Ice Production¹ (kg)	22	32	53	57	76
Ice Storage Capacity (kg)	5.5	5.5	14	14	30
Width (cm)	45	45	55	55	70
Depth (cm)	47.5	47.5	55	55	60
Height (cm)	65	65	80	80	90

¹Kilograms produced per day. Approximate ice-making capacity based on air-cooled condenser unit at 21°C air and 10°C water.

WARRANTY - 2 years parts and 1 year labour
