

STAINLESS STEEL SINK - DR392 FULLY WELDED

DIMENSIONS

The fully welded 1500mm wide sink from Holmes features a double left side bowl with right side drainer, and is easy to assemble. The sink is made with 304 stainless steel, a material preferred in the production of commercial kitchen furniture for its high resistance to corrosion, staining and physical impact. This is ideal for use in sinks as it is also smooth and easy to clean, allowing you to create practical and hygienic washing areas in your kitchen. The sink also benefits from a strong undershelf which offers extra storage for supplies and utensils.
