FEATURES AND BENEFITS

Eaziclean Removable Blade

The easy-to-remove blade carrier sets this can opener apart from the competition. Often targeted by health and safety a clean blade is essential for maintaining food hygiene standards.

Clean Cut

The blade of a Bonzer Can Opener isn't sharp - therefore, it produces a clean, safe cut in which you can run your finger around without fear of slicing. This has the added benefit of releasing no metal swarf which could end up in the food.

Easy Maintenance & Spares

We offer a full array of spares for each can opener. Wheels and blades need replacing and will gradually wear with use. We've made it quick and easy to replace the blade and wheel so your can opener can work as well as the day you bought it.

Simply pull the handle to release blade!
