

COLD ROOMS

An exciting new addition to the Polar range of commercial refrigeration - a wide selection of superb quality modular integral walk-in cold and freezer rooms.

Available in 10 sizes, each room is highly secure and weather resistant. Each panel is 80mm thick and features an innovative dovetail design to provide maximum insulation and efficiency.

Polar cold rooms are designed for performance and are able to operate effectively even when ambient temperatures reach 43°C, all off a 13 Amp plug.

Curved edges between wall and floor panels make Polar cold rooms easy to clean, as dirt and grime can't build up in the corners.

The floor is made from a slip resistant, easy-clean diamond plate metal sheet and the internal light enables easy access to the contents. The external digital control panel allows precise temperature regulation. At 2.2m high offering more storage capacity.

The door is fitted with a self-closing system, as well as an inner safety mechanism which prevents accidental "lock ins". The door is also fully rebated – meaning it closes flush against the wall panels, adding security and energy-saving efficiency.

Polar cold rooms are available in four different colours:

Van Dyke Brown

Olive Green

Anthracite Grey

Polar White

HOW TO ORDER

Cold rooms are available in chiller and freezer options.

For chillers, choose codes ending in -C. For freezers, choose codes ending in -F.

Once you've chosen the size of the chilled or frozen cold room you want, select your colour by adding the relevant two letters listed below to your product code.

E.g. For a brown 1500(W) x 1800(D)mm freezer use DS482-FBN.

If you want the shelving pack - order using associated code e.g. for 1500 x 1800 use DS592. N.B Shelving is delivered flat packed for self assembly.

If room is going outside - order weather proof roof associated with room size.

E.g. roof for 1500(w) x 1800(d) room use DT261-BN/GN/GY/WH (for colour).

Van Dyke Brown
(BN)

Olive Green
(GN)

Anthracite Grey
(GY)

Polar White
(WH)

COLD ROOM INSTALLATION

Once you have placed your order, a representative will call within 24 hours to arrange a site survey of your premises. At the survey, you will then be able to agree an installation date, which is guaranteed to be within 21 days of your order.

- ✓ **Place Your Order**
- ✓ **Receive a Call within 24 Hours (Monday-Friday)**
- ✓ **Book a Site Survey**
- ✓ **Agree your Installation Date**
