

Professional Induction

PID700

The PID700 is a high-performance dual zone induction hob. Each hob having full independent control, each maximising a full 3Kw of power. It will suit any busy kitchen and is perfect for the front of house environment where theatre cooking can really add to the experience of your customers.

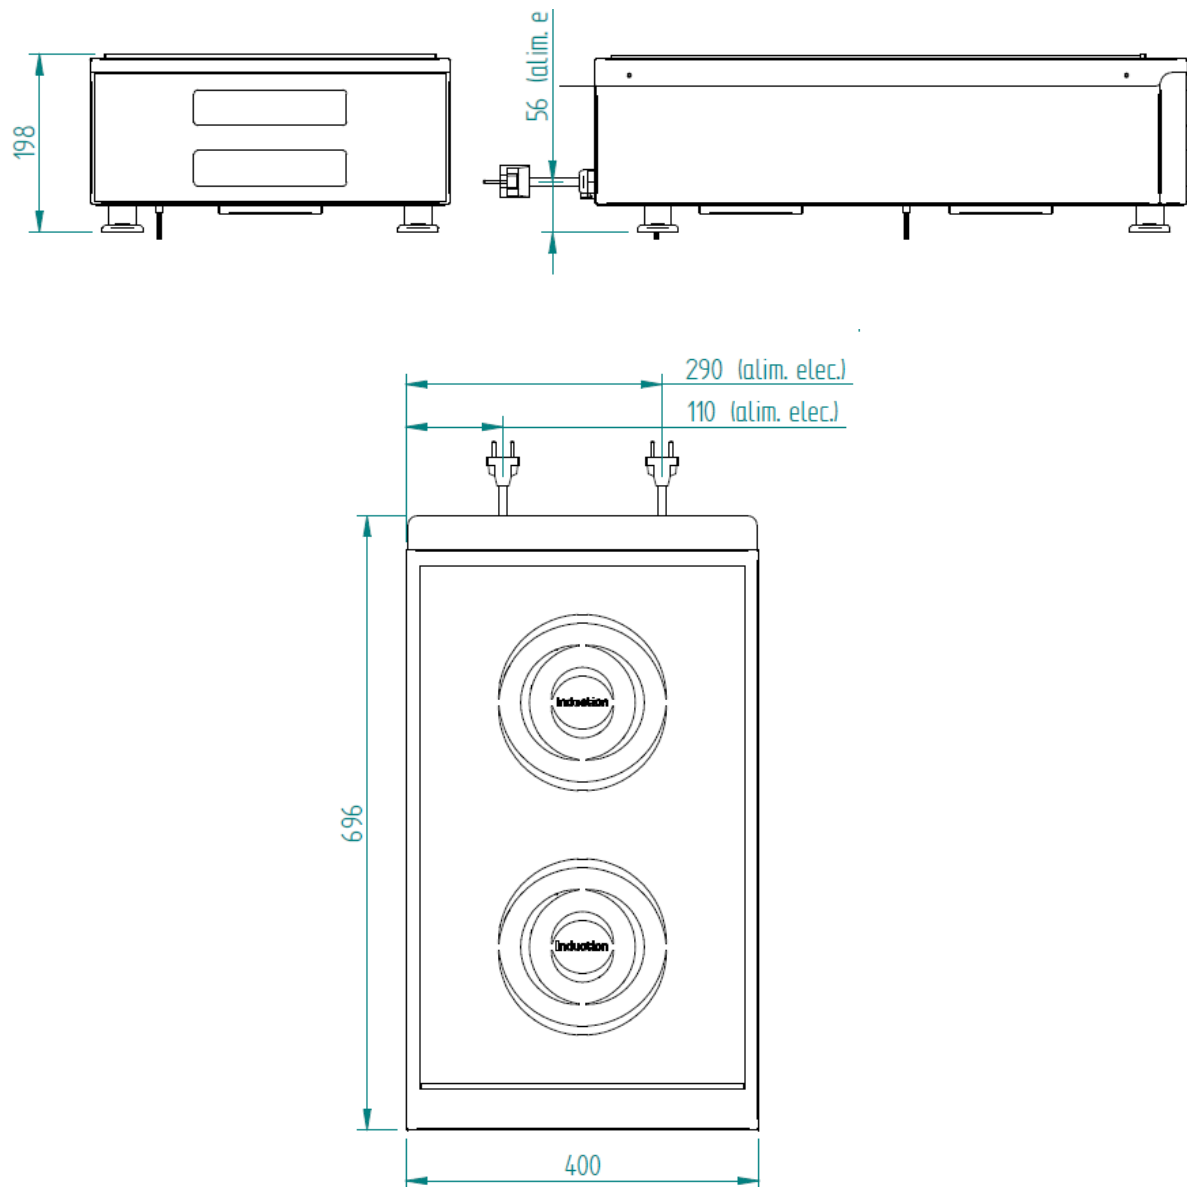

Power, efficiency and control.
That's what Roller Grill brings to your busy kitchen.

Key Features of the Roller Grill PIS30 Induction Hob

www.rollergrill.co.uk

- Instant power: as soon as you switch the PID700 on it immediately starts at 1500w, so you are always ready to cook.
- The PID700 works on power with 10 levels, from 400w to 3000w or on temperature, from 60°C to 240°C.
- The PID700 features a digital timer with three presets, or you can override and use manually.
- Each induction zone covers 280mm square and with the 4mm thick ceramic glass plate will support a pan up to 20Kg.
- The Sauté Zone extends approx. 25mm above the surface of the vitro-ceramic plate allowing you to work the food without losing heat.
- The PI700 features a lock function. Once you have set the correct power or temperature, you can lock the controls to keep the right setting. The timer can still be used when the controls are locked.
- The robust design of the Roller Grill inductor will protect your equipment against accidental knocks and drops.
- Our unique design of airflow management and the two ventilation fans means that the PID700 will perform in your kitchen for as long as you need it to.

Weight	15kg
Dimensions (mm)	400 x 700 x 190
Cooking area (mm)	2 x 280x280x25
Power	2 x 3Kw/230v/1ph 13amp plug
Inductor rating	8 hours at 3Kw
Energy efficiency	95%
