

Model:
CL40

Icemaker - Vertical Evaporator Production
 45kg production, 13kg storage

General Information

CL40, the elegant compact mains connected icemaker produces 45kg of cubed ice per 24 hours with a generous 13kg insulated storage bin.

The exterior of the CL40 is constructed entirely from stainless steel, attractive, timeless and hygienic.

The small foot print of the CL40 allows for easy installation under counter or behind the bar.

The mains water and waste connections allow the machine to run 24 hours a day so that there is always ice available when required.

Intelligent electronic controls turn off production when the storage bin is full and automatically restart the machine when ice is removed.

A self cleaning cycle allows for easy maintenance for sanitary and hygienic operation and a built in air filter makes routine condenser cleaning easy.

Key Features

- Vertical evaporator production
- Dice shaped ice cubes
- 45kg production per 24 hours
- 13kg insulated storage bin
- Intelligent electronic controls
- mains connected for fully automatic operation
- Self cleaning cycle
- Condenser air filter for easy maintenance
- Adjustable ice thickness

Construction

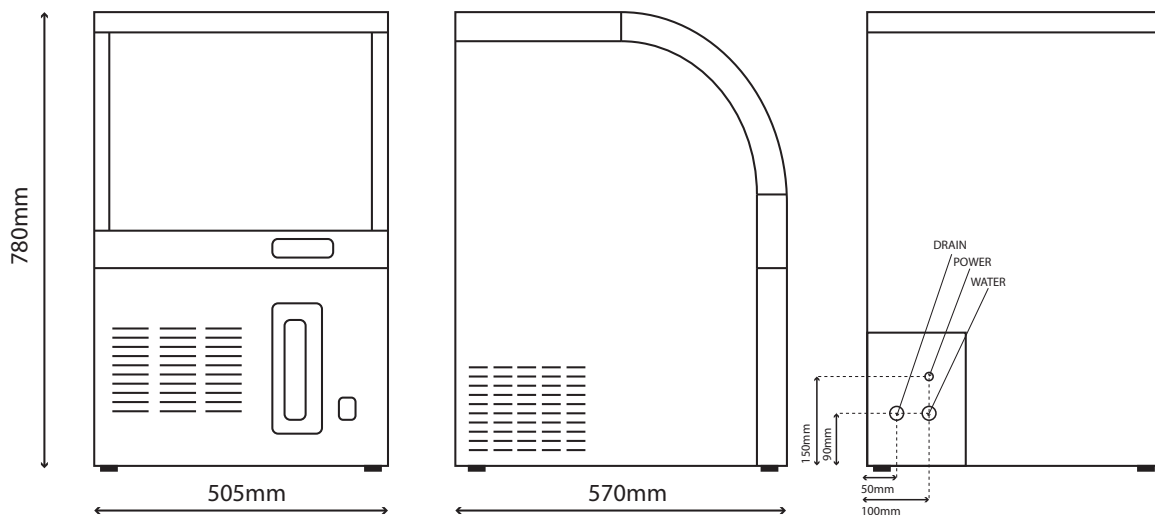

- Stainless steel construction
- Insulated storage bin
- Small footprint design for easy installation

Available Options

- Evapure 4H water filter

Technical Data

Model	CL40
Production / 24 hours	45kg
Storage bin	13kg
Ice shape	Dice
Defrost type	Hot gas
Condenser type	Air
Evaporator	Vertical
External Dimensions	Width = 505 Depth = 656 Height = 910
Interior Finish	Food safe plastic
Exterior Finish	Stainless steel
Power supply	230v 50hz
Power rating	290w
Refrigerant	R290
Refrigerant charge	105g
Climate Class	SN, N, ST

Approvals	Available At	Document #
