55.0001.6040

What do you expect from your chafing dishes? An attractive design? Top quality? Perfect handling?

The WMF HOT & FRESH range offers you perceptibly more. The encapsulated Transtherm® base, the transparent glass lid and an intelligent condensation recirculating system will convince you; whether in GN 2/3 or round.

Universal

Doing one thing doesn't exclude another.

WMF HOT & FRESH chafing dishes not only meet the demand for chafing dishes suitable for induction systems but also perform well with standard heat sources; hotplates and sterno systems. With a consistently high quality which means your food remains hot and appetising throughout. Your customers will be satisfied.

As well as outstanding flexibility and a high level of functionality, WMF HOT & FRESH chafing dishes also have other product benefits, including heat-resistant handles, catering-grade material and an extensive range of accessories. This way, you can raise the quality of your buffet to a new level, but still match your current style as the products coordinate perfectly with the WMF CHANGE Collection!

Smooth operation. Over and over again.

German-made quality:
the lid solution makes opening and
closing the chafing dish a pleasure.

Every WMF HOT & FRESH chafing dish
is equipped with a transparent glass
lid. That provides a clear view of the
food, even when closed. It's so easy
to open, and it engages at various
opening angles. Closing it is even
easier: the lid movement is controlled
by a long-life brake mechanism
developed in Germany and therefore
the noise is dampened.

With taste and style, the elegant porcelain
and Cromargan® WMF utensil rack is the per-
fect complement to the WMF HOT & FRESH
chafing dish. Just slot it in, place the serving
spoon on top and that's it!

The fresher the better ...

... as your customers indeed know: food deteriorates when kept warm for too long. So it's not surprising that there is a movement in catering towards smaller portions and on demand preparation, with the emphasis on freshness and flavour. A trend which – naturally – will encompass the buffet too.

WMF Vitalis Aroma steaming system

2 pcs. are fitting into steamer VITALIS

The clear glass lids allow a view of the contents and help diners choose faster.

The restaurateur will be delighted by these Chafing Dishes too, for the quality materials such as stainless steel 18/10, cast aluminium, glass and porcelain are impressive not only in terms of their fine appearance but also their durability. They are easy to clean, as well – just pop them into the dishwasher.

The extra-thick ferromagnetic TransTherm® base suitable for all hobs provides excellent, even heat distribution and ensures that all the advantages of the inductive process can be utilised at the buffet.
