Bar Aid 400S Glasswasher

A compact and efficient 400 x 400mm basket glasswasher capable of up to 48 cycles per hour.

Ease of Operation

- Electronic controls – simple to use, easy to understand
- Easy to clean – just six components to remove
- Automatic drain down and self flushing cycle – fast, efficient and promotes good hygiene standards
- Comprehensive specification - all pumps and dosing equipment fitted as standard

Consistently outstanding wash results

- Separate upper and lower wash and rinse arms – 100% glass coverage for outstanding results
- Standard built in softener - ensures optimum water quality to deliver a sparkling finish
- Integral detergent and rinse aid pumps - precise dosing for streak free results
- Choice of 75 or 150 second cycles – fast cycles, high output

Energy saving features

- Multi phasing power options - can be reconfigured to suit different electrical requirements
- Compact L shaped 8 litre wash tank and economical 2.3 litre rinse ensures lowest running costs

Points to remember

Using the correct glass racks will significantly improve washed results.

A tilted and divided rack promotes rapid drying and safer handling of glasses and helps eliminate breakages.

Supplied as standard with: 1 x 4 Division Tilt Rack, 1 x Open Rack

BarAid 500S Glasswasher

A high performance, high capacity 500 x 500mm basket glasswasher with a comprehensive specification capable of washing up to 40 cycles per hour.

Ease of Operation

- Single button control - easy to use and understand
- Chamber and wash tank with smooth, rounded corners and polished interior – no dirt traps and easy to access
- Easy to clean - only 6 removable items for cleaning
- Automatic self flushing drain cycle on machine shut down
- Comprehensive specification - all pumps and dosing equipment fitted as standard

Consistently outstanding wash results

- Separate upper and lower wash and rinse arms - complete glass coverage ensuring perfect wash results
- Standard built in softener - ensures optimum water quality
- Integral detergent and rinse aid pumps - precise dosing for guaranteed quality results
- Choice of 90 or 120 second cycles – fast cycles, high output
- Interlocked strainer ensures correct location and operation of filter system
- Two stage strainer system removes debris and helps to protect the wash pump

Energy saving features

- Economical rinse system uses just 2.5 litres of fresh water per cycle saving on water, energy, detergent and rinse aid costs
- Double skinned construction keeps radiated heat and noise levels to a minimum and reduces energy loss
- Wash tank capacity of just 10.8 litres, saves on water, energy and detergent

Supplied as standard with: 1 x 4 Division Tilt Rack

Bar Aid 800S

A versatile and economical front loading dishwasher capable of washing up to 40 cycles per hour (approx. 160 covers per hour)

Ease of Operation

- Single button control - easy to use and understand
- Chamber and wash tank with smooth, rounded corners and polished interior - no dirt traps and easy to access
- Easy to clean - only 6 removable items for cleaning
- Hygienic self flushing drain cycle on machine shut down
- Comprehensive specification - all pumps and dosing equipment fitted as standard

Consistently outstanding wash results

- Powerful 0.6 kW pump delivers total wash coverage via separate upper and lower wash and rinse arms
- Standard built in softener - ensures optimum water quality
- Integral detergent and rinse aid pumps - precise dosing for guaranteed quality results
- Choice of 90 or 180 second cycles - standard cycle for crockery and cutlery plus a longer cycle for heavy soiling, containers, etc
- Interlocked strainer ensures correct location and operation of filter system
- Two stage strainer system removes debris and helps to protect the wash pump

Energy saving features

- Economical rinse system uses just 2.5 litres of fresh water per cycle saving on water, energy, detergent and rinse aid costs
- Double skinned construction keeps radiated heat and noise levels to a minimum and reduces energy loss
- Wash tank capacity of just 10.8 litres, saves on water, energy and detergent

Supplied as standard with: 1 x Plate Rack, 1 x Open Rack, 1 x 4 Comp. Cutlery Basket

Bar Aid 900S

A powerful Hood Type Dishwasher capable of washing up to 60 racks per hour (approx. 240 covers per hour)

Ease of Operation

- Hood mounted single button control with colour cycle indication - easy to use and understand
- Hygienic self flushing drain cycle on machine shut down
- Comprehensive specification - all pumps and dosing equipment fitted as standard
- 440mm Hood Opening Height - allows double racking of cups, saucers, etc and easy loading of trays
- Comprehensive specification - all pumps fitted as standard

Consistently outstanding wash results

- Powerful 0.73 kW pump delivers total wash coverage via separate upper and lower wash and rinse arms
- Standard built in softener - ensures optimum water quality
- Integral detergent and rinse aid pumps - precise dosing for guaranteed quality results
- Choice of 60, 90 or 120 second cycles - to suit a variety of ware and degree of soiling
- Interlocked strainer ensures correct location and operation of filter system
- Two stage filter system removes debris and helps to protect the wash pump
- The advanced rinse system delivers optimised water distribution at a constant 82°C

Energy saving features

- Unique 4 sided fully enclosed hood - prevents heat and steam escaping when the hood is raised saving energy
- 440mm high hood opening, high enough to allow double racking
- Economical rinse system uses just 2.5 litres of fresh water per cycle saving on water, energy, detergent and rinse aid costs
- Wash tank capacity of just 21 litres saves on water, energy and detergent consumption

Supplied as standard with: 1 x Plate Rack, 1 x Open Rack, 1 x 4 Comp. Cutlery Basket
