Bormioli Rocco

Leading the way with state of the art glassware

Bormioli Rocco's first glassware factory dates back to 1825, but historians say the origins of Bormioli Rocco glass can be traced to the Middle Ages. With stemware, tumblers, beer glasses and iconic food storage jars gracing tables around the world, quality is the cornerstone of the foundation supporting the Bormioli Rocco brand.

The manufacturing facilities utilise state of the art technology and economically source only the best raw materials. From the finest sand imported from Germany to organic glazes used to colour glass, all are brought together in products influenced by exhaustive design research. Thanks to continuing investment in technology, research and design, Bormioli Rocco has become one of the leading glass manufacturers in the world.

Starglass

The composition of selected raw materials gives this glass a high purity in the absence of heavy metals, to ensure 100% recyclable products. Exceptional brightness and clarity.

XLT Treatment

Protecting stems from abrasion and maintaining sturdiness over time.

Infinity Colour

Colour will remain unchanged throughout the lifespan of the glass. Dishwasher safe and recyclable.

BORMIOLI ROCCO

Made in Italy since 1825

The elegance you want, the durability you need

"In alto i calici" is the traditional Italian phrase meaning to "Raise your glasses" before a toast. The Inalto collection is Bormioli Rocco's toast to fine Italian design and was created with the restaurateur in mind; providing the elegance you want, and the durability you need. The distinctive angles and tall, thin stem beautifully enhance a table setting. The brilliancy of Star Glass provides the guest with an exceptional wine tasting experience, while the durability of the XLT strengthened stem maximizes operator value. Inalto exemplifies the passion of Italian design, grace and quality.
